The screenshot shows a web-based configuration interface for a Global Cache device. At the top, there's a header bar with a back arrow, the IP address '192.168.1.70', and the Global Cache logo. Below the header is a blue navigation bar with the 'Global Caché' logo. The main content area has a green sidebar on the left containing 'Configuration Pages:' and a list of options: Overview, Authentication, Network, Infrared (which is highlighted with a blue border), and Sensors. The main panel title is 'IR Configuration'. It contains a dropdown for 'Standard Unit Mode' set to 'Standard Unit Mode'. Below it are three sections for 'Connector 1', 'Connector 2', and 'Connector 3'. Each section has a 'Configuration' dropdown set to 'IR Out', a 'Notify Port' input field set to 'N/A', and a 'Notify Timer: (sec)' input field set to 'N/A'. A 'Save' button is located at the bottom right of the configuration grid. The footer of the page includes a copyright notice: '© Copyright 2011 Global Caché. All Rights Reserved.' followed by links to 'Support' and 'Website'.

No higher resolution available.
